F	RESIDENT
2006	
S	

**Angie Eng** is a media artist who works in video, installation and time-based performance. Influenced by theories of psychogeographics, Eng's "Urban Attractors and Private Distractors" will explore custom and behavior in relation to

culturally determined understandings and distinctions between concepts of public/private and inside/outside in physical space/cyberspace. Eng's project will include local workshops and online collaborations with groups of young people in NYC and Hanoi.
